Rumour has it in scotland and she told me she only went to the subday mail years ago to do in her ex husband drew walker who she claimed was after her money.

Then she kept doing people in over the Sunday mail

Levy and macrae solicitors did that divorce I think then the wray divorce

It's the same old names coming up all the time. The scottish and engkish press really need to get sorted out

And now we have her siding with an abusive man v me

People are very weird

This thing is not just about richard gadd and a daft show. It's about how people who stand up for battered women eu catherine Davidson wray or whoever doesn't suit the establishment are done over by a sick twist journalist Nd a sick twist lawyer acting for any particular newspaper

I hope I get to talk about this in my TV interview next week I really do

This was all in response to laura walkers interview questions. Then a bunch of roses arrived during the interview

I have a feeling it was valentines day but I could be wrong

Oh sweet I said

Yes it's from my fiancé

Oh how nice I said when's the wedding

When he gets divorced she said

There had been loads about this in the press but I hadn't seen it

She was waiting for jimmy wray to get divorced from the first mrs wray

Oh I see difficult complicated or something like that
